

Passo 02: Coloque o Pen Drive no Netbook Positivo N1110 e pressione F11 para escolher o Boot pelo Pen Drive (para a senha de opção de boot, entre em contato com o NIT por e-mail)

Passo 03: Escolha uma das opções abaixo:

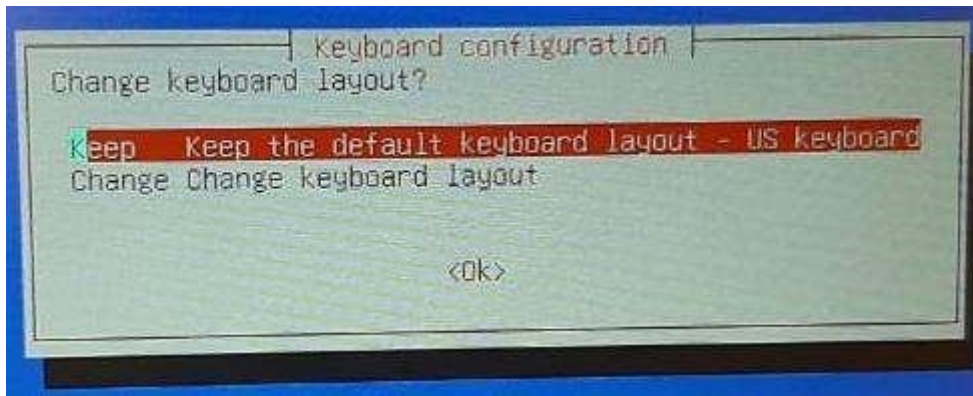

Passo 04: Escolha o Idioma:

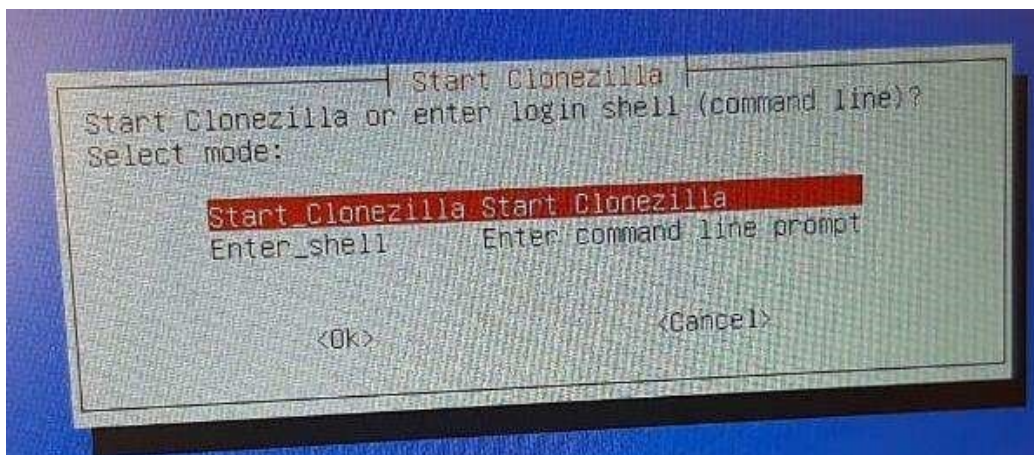

Obs: Este tutorial foi feito com base no Idioma English.

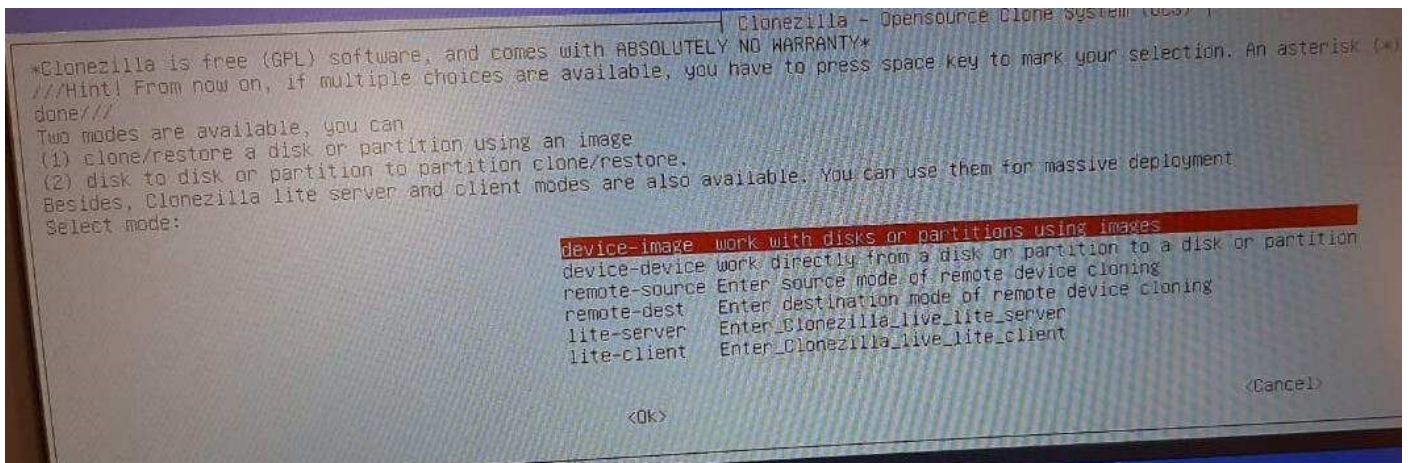

Passo 05: Tela para escolha do Teclado, neste caso, pressione Enter.

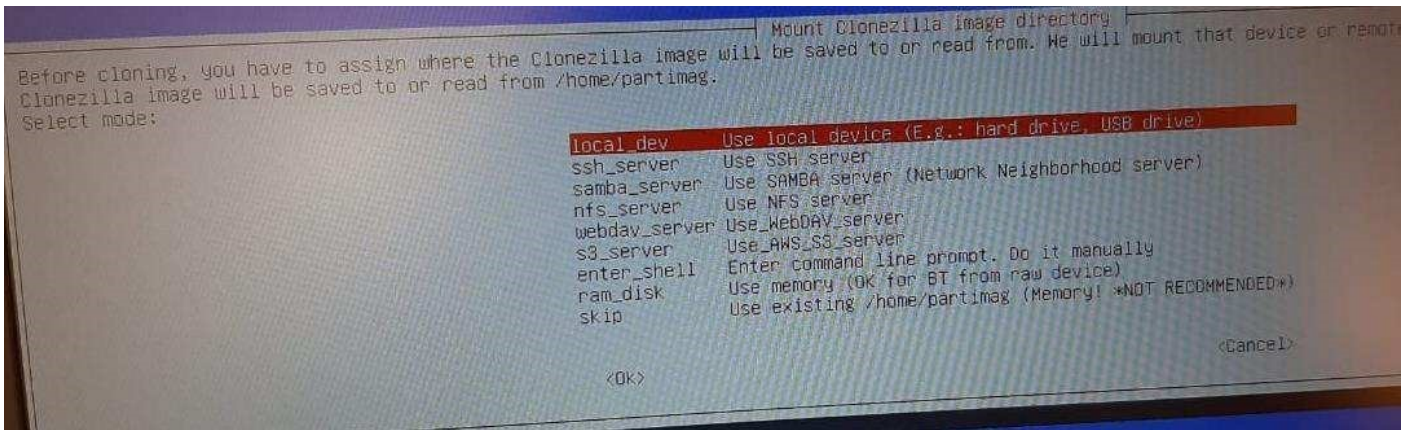

Passo 06: Pressione Enter para iniciar o Clonezilla.

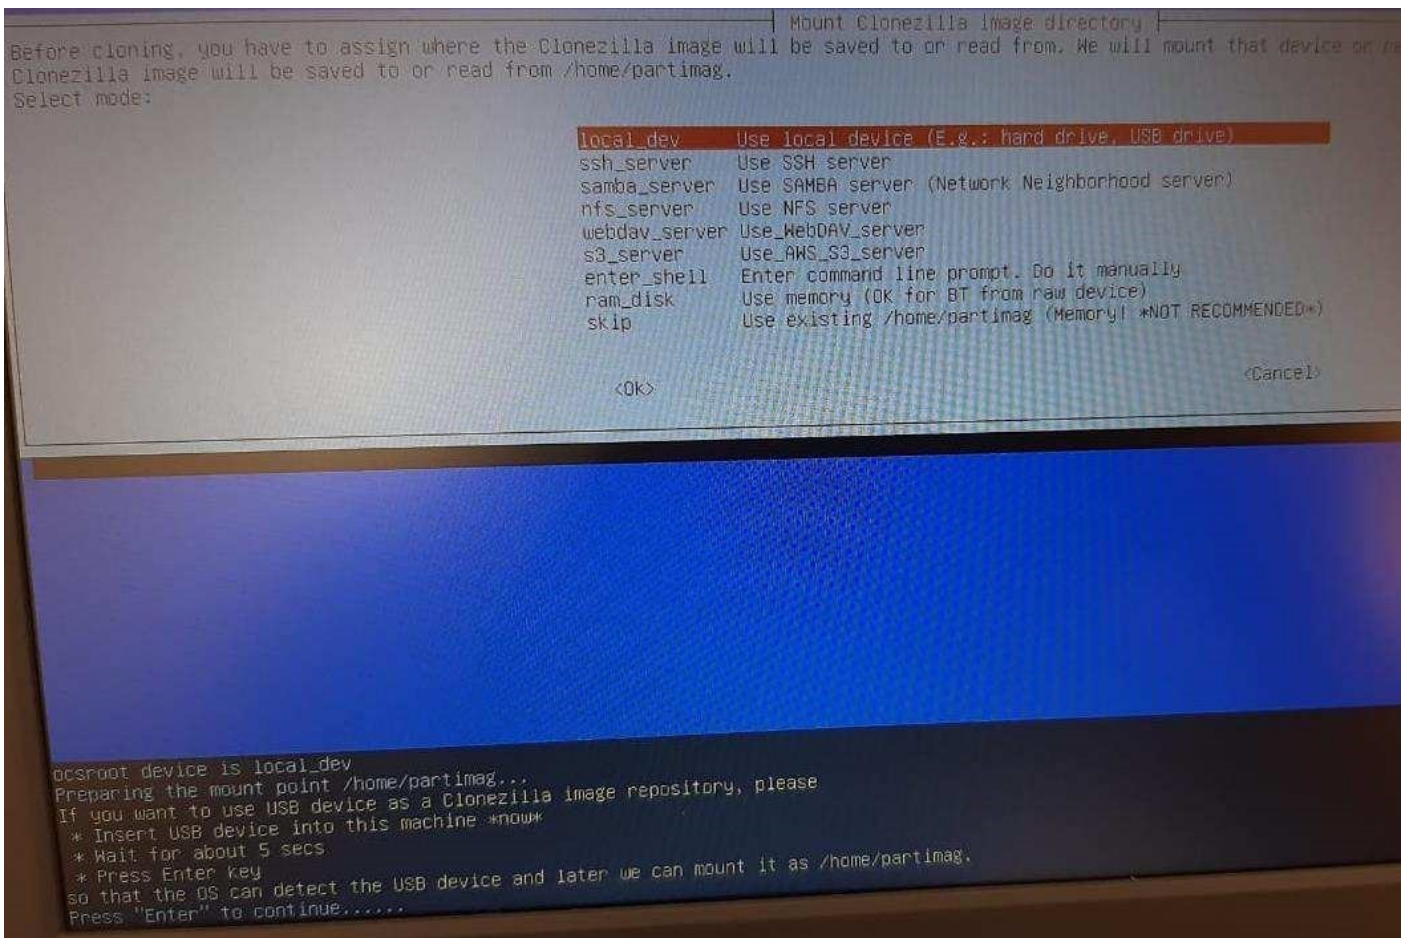

Passo 07: Pressione Enter em **device-image**, conforme imagem abaixo:

Passo 08: Pressione Enter em **local_dev**, conforme imagem abaixo:

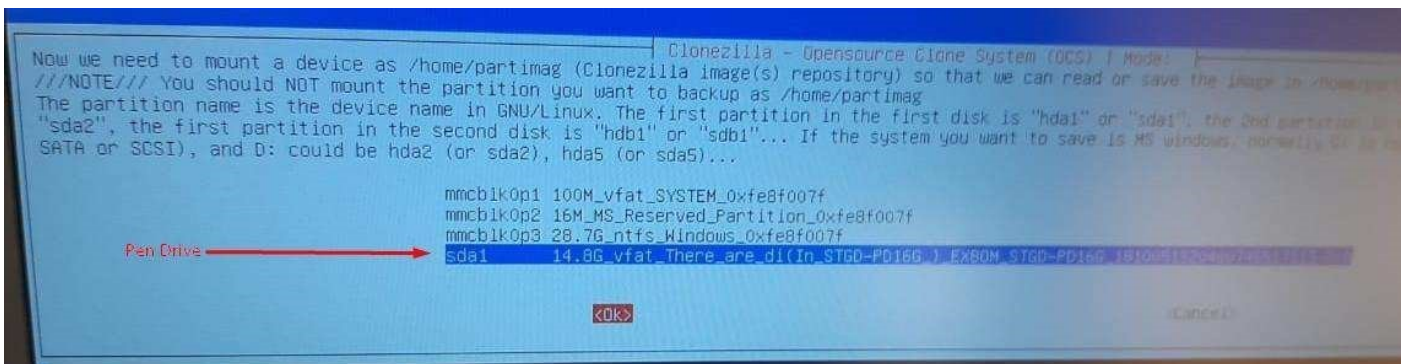

Passo 09: Pressione Enter novamente:

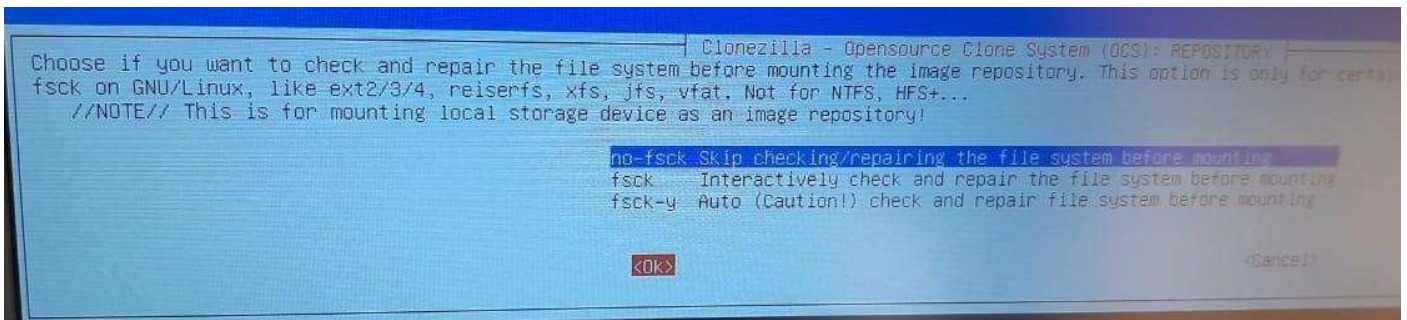

Passo 10: Nesta tela será mostrado o dispositivo de armazenamento do Netbook e o Pen Drive, Pressione Ctrl-C para ir para a próxima tela.

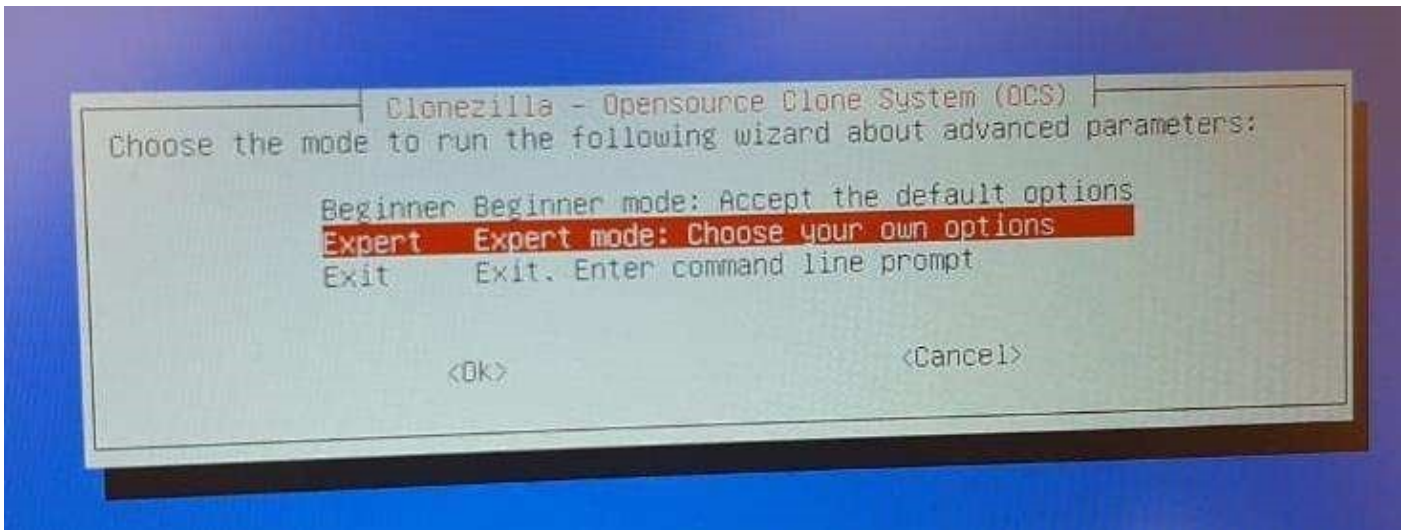

Passo 11: Seleção o Pen Drive:

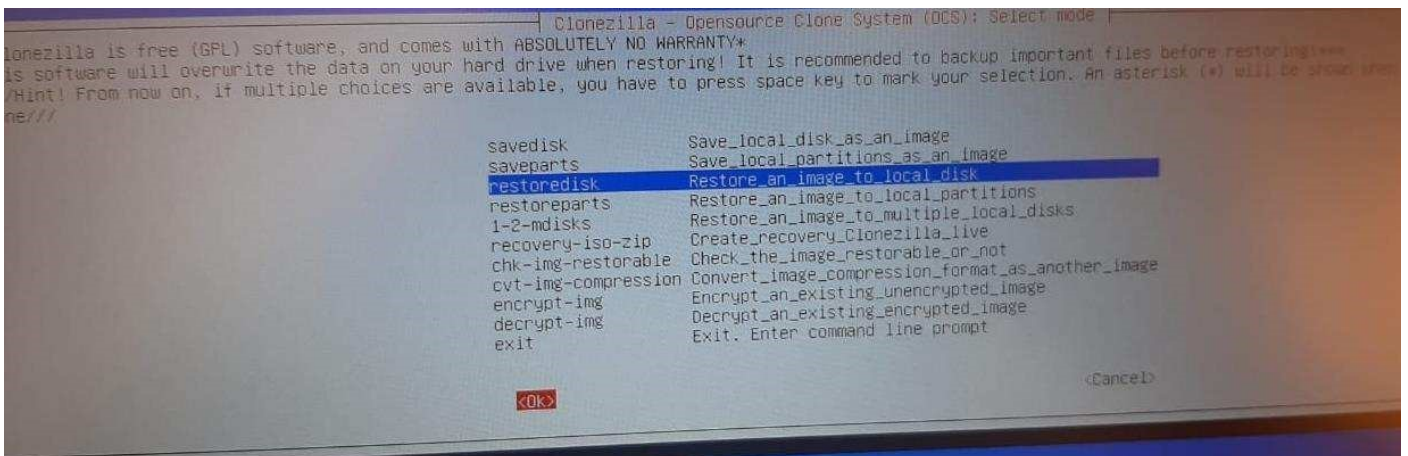

Passo 12: Pressione Enter em no-fsck:

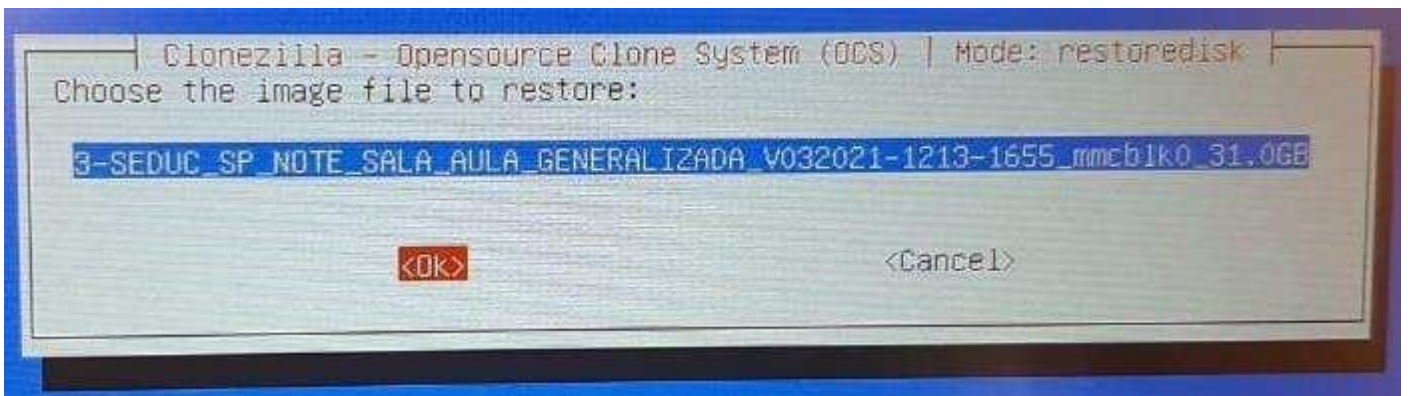

Passo 13: Seleção a pasta onde está a Imagem do Netbook: obs: use a tecla Tab para selecionar o botão <Done> e tecla Enter:

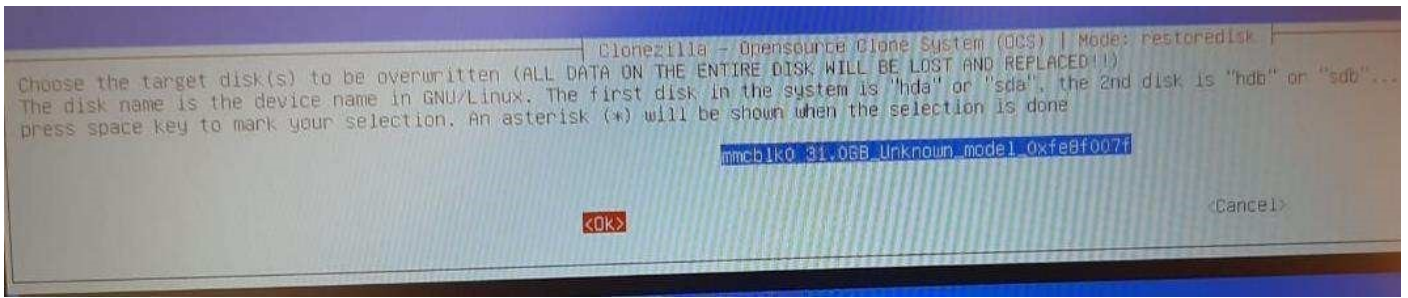

Passo 16: Escolha a terceira opção, **restoredisk**:

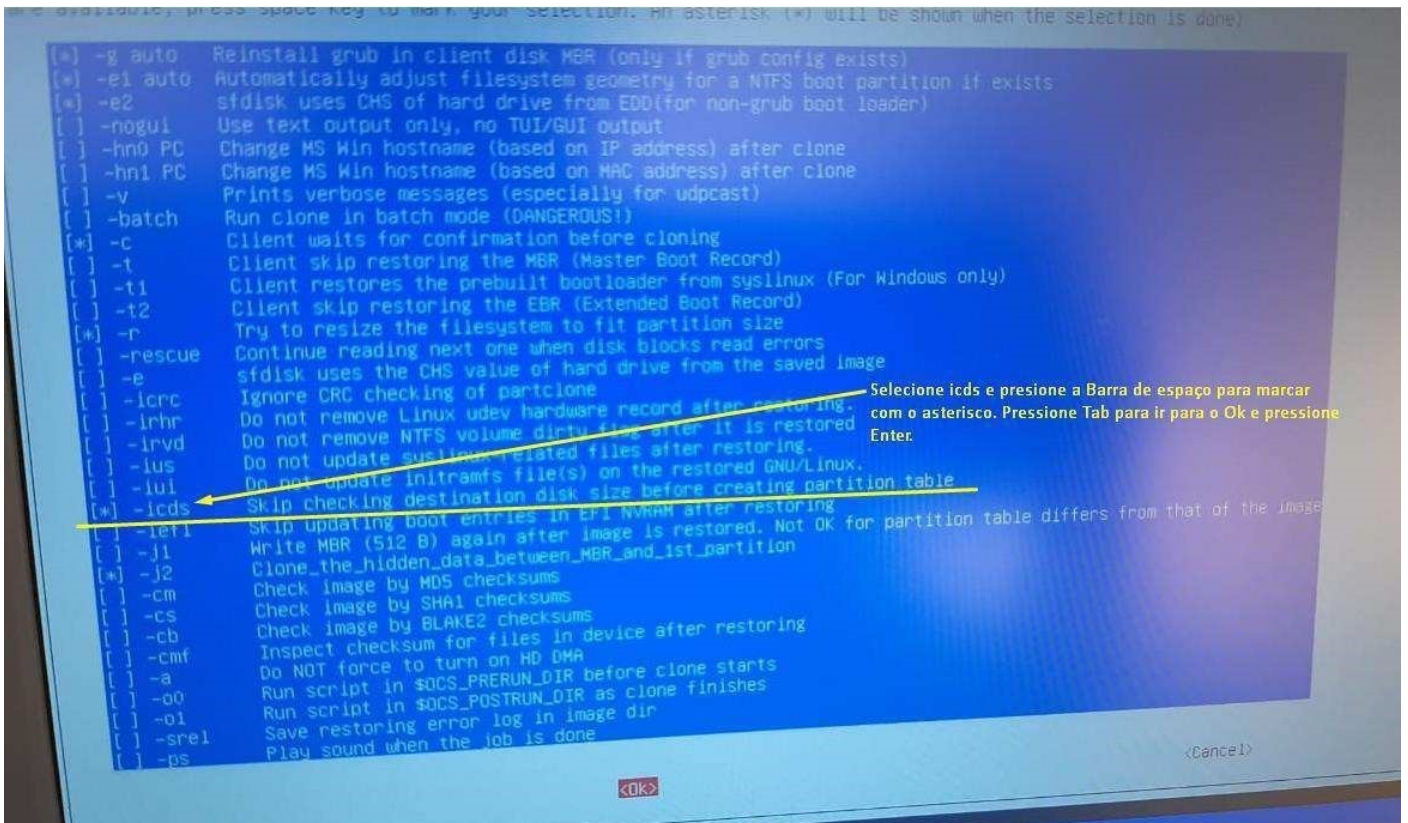

Passo 17: Selecione ok e pressione Enter:

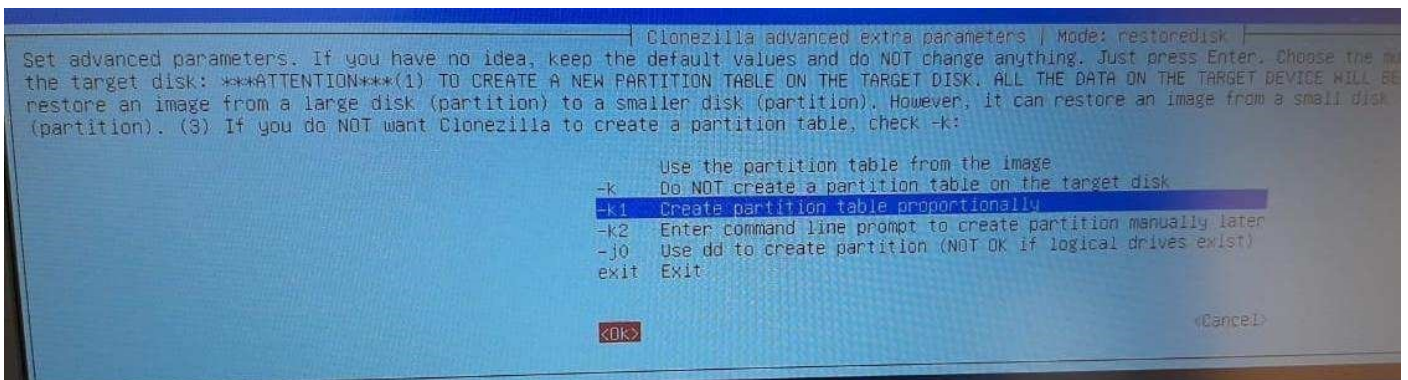

Passo 18: Selecione ok e pressione Enter:

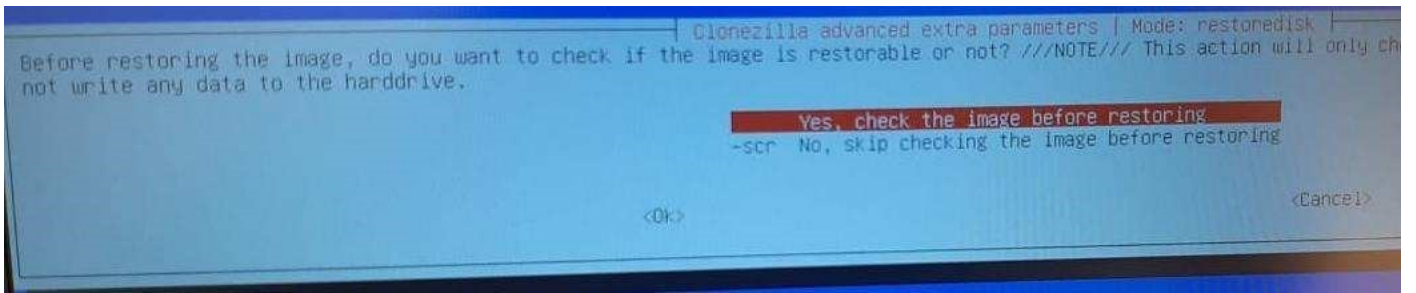

Passo 19: Selecione icds e pressione barra de espaço para inserir o asterisco. Pressione Tab para ir para o Ok e pressione Enter.

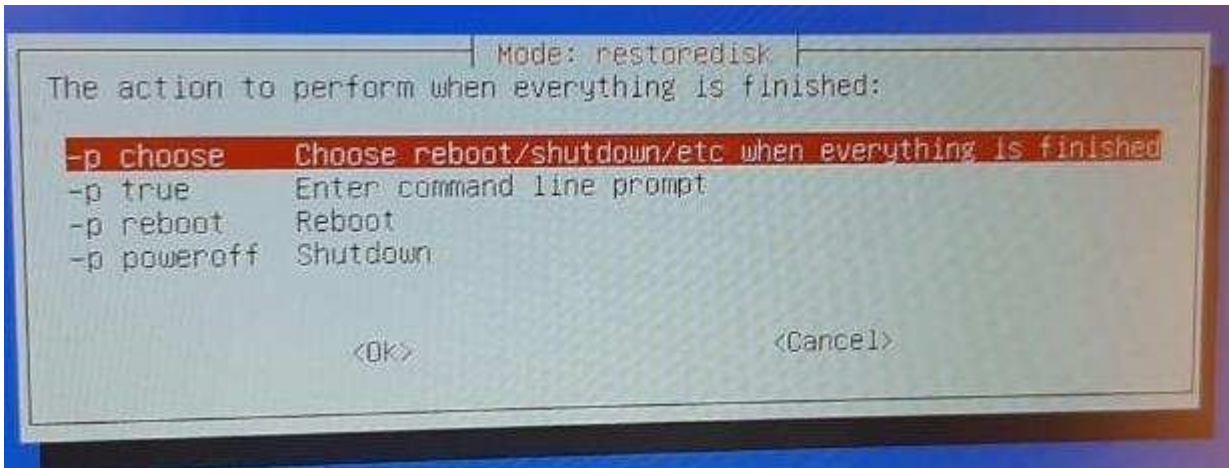

Passo 20: Selecione -k1, Tab para Ok e pressione Enter:

Passo 21: Selecione Yes para checar a imagem ou No para continuar sem checar.

Passo 22: Seleccione -p choose, Ok e Enter.

Passo 23: Pressione Enter novamente:

Passo 24: Irá começar a instalação, isso pode demorar em média 10 minutos:

Passo 25: Pressione y e Enter uma vez e pressione y e Enter novamente:

```
Checked successfully.
The image of this partition is restorable: mmcblk0p4
*****
All the images of partition or LV devices in this image were checked and they are restorable: 3
Summary of image checking:
=====
GPT 1st partition table file found!
GPT 2nd partition table file found!
GPT partition table file for this disk saved by gdisk was found: mmcblk0
The image of this partition is restorable: mmcblk0p1
Image was saved by dd or partclone.dd. No need or no way to check the file system integrity: mmc
The image of this partition is restorable: mmcblk0p2
The image of this partition is restorable: mmcblk0p3
The image of this partition is restorable: mmcblk0p4
All the images of partition or LV devices in this image were checked and they are restorable: 3-5
=====
Activating the partition info in /proc... done!
*****
The following step is to restore an image to the hard disk/partition(s) on this machine: "/home/p
mmcblk0p2 mmcblk0p3 mmcblk0p4"
The image was created at: 2021-12-13-1655
